

BBQ's on Weymouth Beach

BBQ's are not advised on Weymouth Beach. If you do decide to have a BBQ on Weymouth beach you may be asked to extinguish it if it becomes an annoyance to other beach users (for example if it is smoking) or if it becomes a hazard (for example large uncontrollable flames).

Beach BBQ Etiquette

- Never bury your BBQ in the sand or shingle when you have finished with it because it retains heat for a long time and could cause injury to a person or animal if stepped on
- Never put a used BBQ in to a bin instead put alongside a bin being careful not to cause any obstruction
- Always leave the beach as you would like to find it
- Always consider other beach users
